

INTRODUCING

Kindful Careopolis

A Metropolis of Love and Empathy

A Kindful Careopolis is a FREE private online community where friends and family can support each other and express sentiments to their loved one receiving end-of-life care.

Interactive Calendar

Keep track of doctor appointments, meal support, and other events so friends and family can see how they can help.

Photo + Video Sharing

Stay connected with friends and family by sending photos and videos. Create a care video and send it to a sick loved one to lift their spirits.

Community Blog

Share status about the patient's journey in a single place. Receive notifications as they happen or schedule daily, weekly, or monthly summaries.

Storytelling

Record videos of your favorite moments together, humorous anecdotes, cherished memories, and share just how much the patient impacted the lives of those around them.

Careopolis helps families focus their energy and time on their loved one by removing emotional barriers. Connecting is simpler and more meaningful with interactive calendars, video sharing, community blog, and storytelling.

Capture memories and create your own free private, personalized Careopolis at [kindfulhealth.com](https://www.kindfulhealth.com)
