

Physicians Did You Know

Who in your practice benefit from additional support?

PRIMARY CARE PHYSICIANS CAN BILL FOR PATIENT CARE EVEN AFTER THEY REFER A PATIENT TO HOSPICE

Why This Matters

- Is your practice missing a billing opportunity?
- Is your practice waiting too long to refer to hospice?
- Does your typical hospice referral enjoy months on hospice? Or is it more like days?

When to Use GV and GW Modifiers

Use a **GV modifier** when the physician provides a service **related to the hospice diagnosis**, and the physician is not employed or paid under arrangement by the patient's hospice provider.

Use a **GW modifier** when the physician provides a service **unrelated** to the hospice diagnosis.
